

Picosecond ***laser tattoo removal machine***

532nm

1064nm

1320nm

755nm

APPLICATION

1

Variety pigment & freckle removal.

4

Skin whitening skin rejuvenation.

2

Eyebrow & eyeliner removal.

5

All colors tattoo removal.

3

Mole & birthmark removal.

6

Wrinkle removal skin resurfacing.

ADVANTAGE

Germany imported water pump

- * No noise, provide a quiet and comfortable environment for patients.
- * Larger water flow for better cooling, prolong laser and machine life

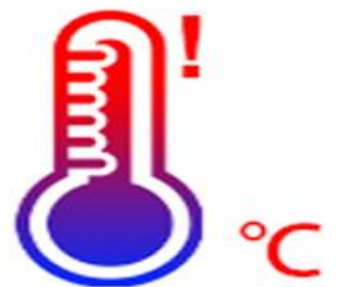

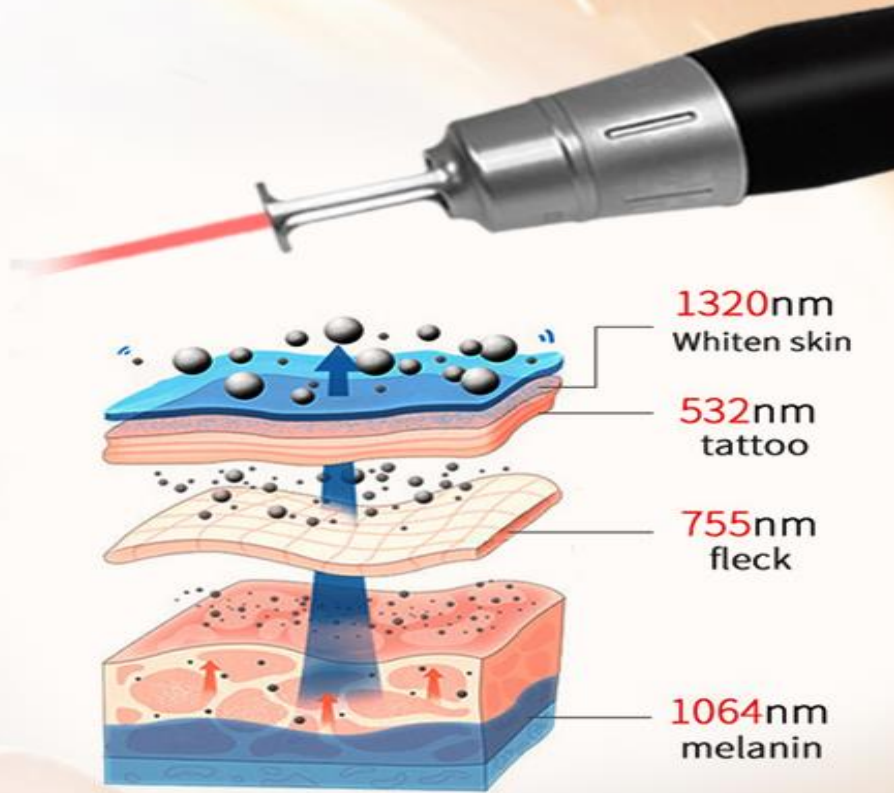

USA Radiator

- * Imported 316L stainless steel, better cooling, longer lifespan.

Temperature control system

- * High Stability (our patent and advantage): with advanced full-automatic water temperature protection cooling system.

755nm

Skin whitening

532nm

Treatment of epidermal pigmentation such as freckles, solar lentiges, epidermal melasma, etc. (mainly for red and brown pigmentation).

1064nm

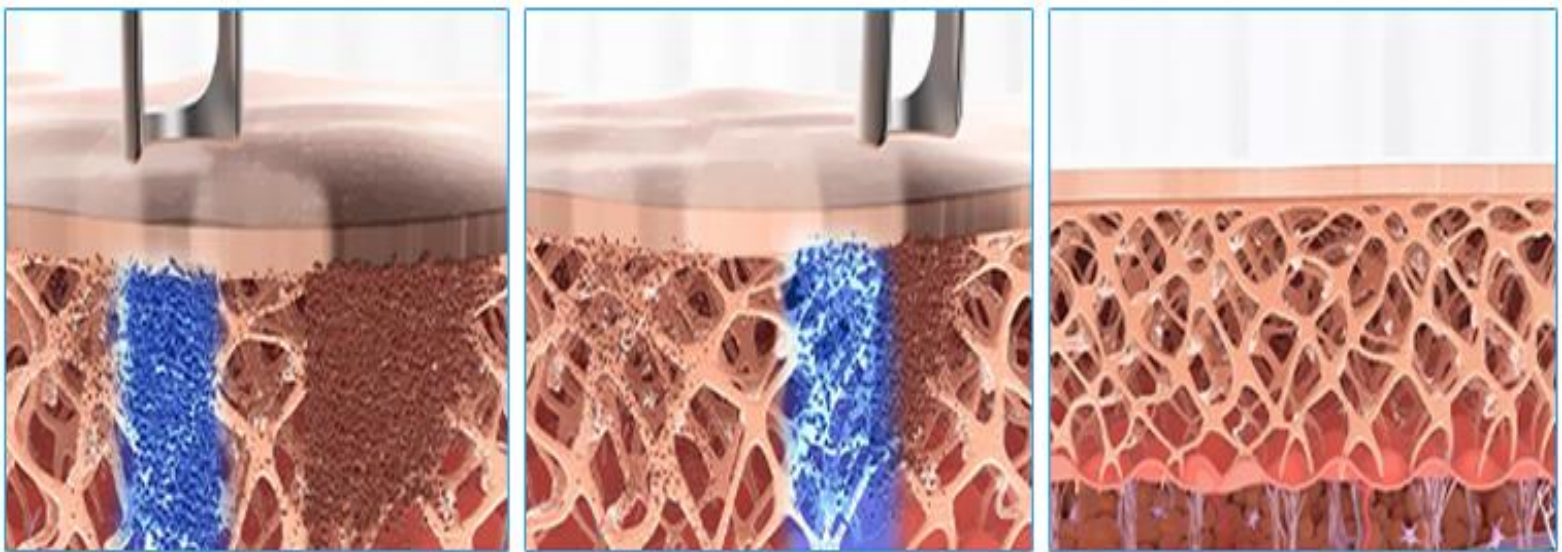

Treatment of tattoo removal, dermal pigmentation and treating certain pigmentary conditions such as nevus of Ota and Hori's Nevus. (mainly for black and blue pigmentation).

1320nm

Non-ablative Laser Rejuvenation (NALR-1320nm) using carbon peel for skin rejuvenation.

HOW IT WORKS?

Picosecond laser machine uses a unique wavelength of light and a specialized lens to convert laser energy into gentle pressure. This pressure squeezes cells, activating the natural cell signaling processes that create new collagen and elastin. Picosecond laser will be minimize the side effects of thermal effect, without burning or damaging the skin, can achieve the goal of almost solve all kinds of pigment spots, is better than traditional laser spot whitening effect.

DETAILS

Type of laser	Sapphire and ruby switch Q/KTP/YAG laser
Joint part	Adopts the most advanced(Plug-and-play)
Screen	10.4 color-touch screen
Wavelength	1064nm/532nm/1320nm/755nm(optional)
Pulse energy	3000mJ
Frequency	1-20hz
Spot diameter	1-8mm
Weight	40KG

Specification

Product name	Picosecond nd yag laser
Warranty	2years
Laser Wavelength	1064nm,532nm,1320nm,755nm
Frequency	1-20Hz (Adjustable)
Pulse Width	20ns
Power	2600w
Screen	10-inch true color touch screen
Shell material	ABS + metal
Cooling system	wind + water +semiconductor
Voltage	220V(110V)/5A 50Hz(60Hz)
Energy Density	3000mj

Why choose us?

- 1, 13 years of focus on beauty machine research and development, production, factory direct sales, spot supply, fast delivery.
2. 2022 New,, high-quality picosecond laser with high power, strong energy, high clearance rate, multiple operating probe. options,1064, 532, 755, 1320 four band options
3. 10.4-inch control system, high power, multi-color options, long service life, the number of laser light emission is more than 3 million times.
4. Support function customization, color customization, language customization, if you have customization needs, please contact customer service
5. 2 years warranty

To order the machin in Iran please call our agent Tajhiz Gostar Laser CO or the manager Mr. Qashqae +989170091842
